Building Construction

## ABOUT US

We are a leading provider of Waste management services (Portable toilets & Industrial Cleaning), Mobile Accommodation facilities (Modular Buildings & Container Conversions), As well as Construction (Civil & General).

Through these divisions we deliver quality, professional service and products using our highly qualified and experienced management and staff team, we service clients nationwide across various sectors including Government & Municipal Departments, Civil and Construction Companies, and Private individuals.

We are 100% black owned and majority managed, we are also proud members of the Institute of Waste Management South Africa (IWMSA), the national home builders regulation (NHBR) and the Construction Industry Development board (CIDB) with a grade 7GB/6CE.

Our Products are available for sale as outright purchases or on hire as long as required, we provide all related support, maintenance and service related to our products.

## Values

To remain relevant in a highly competitive environment, always seeking growth from high visibility.

## Mission

Committed to service excellence with highest level of quality, restoring human dignity, maintaining lifelong relationship with our client through continuous innovation.

## Vision

- Service Excellence
- Restoring Human Dignity

- Innovation
- Accountability

## Portable Toilets and Septic Pumping

We offer a range of portable sanitation solutions to the Government, Construction & Mining Industries, these range from Chemical Toilets, Portable Handwash Basins, Urinals etc to mobile toilet trailers and ablution blocks which can be built into Modular Building structures or by linking several portable toilets and can be connected to an existing sewer line or septic tank.

The advantage of these solutions is that they are quick and easy to erect and relocate, they are more hygienic than most alternatives due to regular ongoing service and maintenance.

Having served many communities in informal settlements we place strong emphasis on human dignity and go the extra mile to ensure that all services are provided in a manner which ensures the health safety and dignity of all stakeholders.

We have a sanitation fleet consisting of 20 trucks vacuum/honey sucker tankers with various tankers capacity of 5kl to 10kls and own more than 6000 chemical toilets.

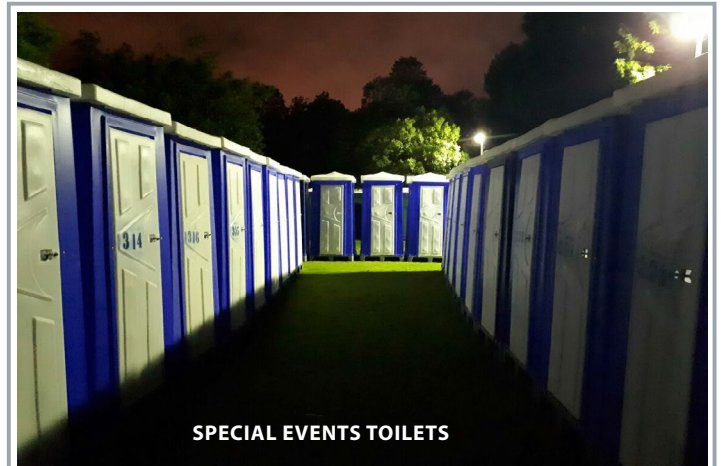

Our toilet range includes:

- **Non flush chemical toilets,**
- **Flush chemical toilets with hand wash basins;**
- **Chemical toilets on trailers for construction sites;**
- **and Mobile toilets for special/ major events.**

Key industries/ clients serviced since:

- **The construction sector,**
- **Special major events,**
- **Funerals, weddings, and parties and**
- **Informal settlements.**

# Industrial Cleaning Solutions

**DRY VACUUM**

**LIQUID SUMPS**

**POWER STATIONS**

**SLUDGE REMOVAL**

**DAM CLEANING**

We offer complete material handling solutions using powerful stationary or Mobile units to convey dry materials and sludge over long distances. Our wide range of industrial cleaning solutions are tailored to give the client peace of mind and assist in providing a safe and healthy working environment for their staff, thereby enabling them to focus on their core business and improve productivity.

The use of technology such as high pressure water jetting offers a highly effective way to remove deposits & coatings from tanks, vessels and pipes as well as the cutting of concrete and steel, this water jetting approach ensures production quality and is more cost efficient, improving productivity whilst being environmentally friendly by eliminating the use of harsh chemicals and the disposal thereof.

Other services offered are:

- **Unblocking Municipal drains**
- **Dust cleaning & Suppression**
- **Deep Cleaning of Toilets / Change rooms etc**
- **Cleaning & Recycling of oils and other hazardous materials**
- **Emptying of Septic & other waste water tanks**
- **Emptying of Dams including removal of mud & sludge**
- **Hiring & Disposal of Skip bins**

**SUPER SUCKER**

# Modular Buildings and Container Conversions

Our name is synonymous with the proud manufacturing of quality Modular Buildings, these structures present a cost effective alternative to constructing permanent structures in places where accommodation is only required on a temporary basis before being moved or as a speedy solution to accommodate people whilst permanent structures are being erected.

We offer a wide range of standard units but we specialise in customizing to meet client specific needs, you as the client can select the size of the building, number of doors, windows and internal divisions, internal fittings such as Kitchen or ablution facilities as well as finishings, the units can be used as classrooms, boardrooms, offices, ablution facilities, Clinics, Accommodation, security Guardhouses and any type of facility that would require a building structure.

We also custom make Modular buildings by modifying shipping containers, the buildings can be made to any size as we cut & Join several containers.

The exterior is then painted to meet the clients corporate branding or visibility/safety requirements while the interior is clad in our standard chromadek panels and can be modified to meet client specification.

# Construction

Complementary to our other key businesses we find pleasure in assisting government to achieve its service delivery objectives through construction and infrastructure development.

With over a decade of experience across various infrastructure disciplines we offer full turnkey construction in the fields of Civil Engineering and Building with particular focus on:

Earthworks
Transportation
Super Structure
Roads and Storm water
Infrastructure Maintenance
Water Reticulation (Portable water and Sewer)

Our team of qualified and experienced Engineering staff has completed various large scale projects throughout the country, and with a CIDB grading of 7GB / 6CE you can be assured that our infrastructure is built to withstand the test of time.

**"we are a proud winner of the Department of Human Settlements  
Govan Mbeki Awards (2016), where we came 1st place in Gauteng  
for building the best community residential units  
(Shalimer Ridge Heidelberg), & came 2nd runner up in the national finals"**

# Manufacturing

Through our recent acquisition of Vaal Industrial Development we are a proud manufacturer of all Vacuum & Hi Vacuum (Super Sucker) Trucks, we also maintain and repair all tankers and pumps as well as the fabrication of all steel related structures, our in-house manufacturing enables us to control the quality of our products and equipment across all our businesses and reduces downtime in relation to breakdowns or lead time on some structures.

We offer our manufacturing services to the market, please consult with our engineering team to discuss your tailored needs.

# The Reliable Solution

Proudly Servicing the following clients:

- **Local Governments i.e., City of Cape Town, George Municipality, Eden District Municipality, Mid-Vaal Municipality, Ekurhuleni Metropolitan Municipality.**
- **Provincial Governments i.e., Department of Human Settlements, Department of Health.**
- **State Owned Enterprises i.e., Johannesburg Water, Eskom**
- **Private Companies and Non Profit Organisations**
